
Utility Operators – Calgary (JOB ID: 2012-1740)

ABOUT CORIX

CORIX is a fully integrated provider of utility infrastructure products, service and systems for water, wastewater and sustainable energy.

With more than 70 years experience and a team of over 2,000 highly skilled people, CORIX works in partnership with communities across North America to deliver practical, real-world utility solutions that are socially, environmentally and financially sustainable.

Our Utilities division develops customized water, wastewater and energy systems and provides field metering services for clients across North America. Our clients include municipalities, resort properties, gas, water and electric utilities, developers and institutions.

POSITION SUMMARY

Corix Utilities has immediate openings for full time and part time Utility Operators at our Calgary plants. Preference will be given to individuals who are certified Alberta Water & Wastewater Operators; all levels will be considered.

DUTIES AND RESPONSIBILITIES

Based on experience, training and certifications

- Daily inspections, monitoring and maintenance of all equipment relating to water and wastewater utility systems in our service area
- Perform routine maintenance on all equipment, pumps, blowers, motors, etc
- Creating and maintaining detailed logs on inspections, monitoring and maintenance
- Daily, weekly, monthly and quarterly sampling of all aspects of the water and wastewater utility systems to ensure compliance with regulatory requirements.
- Developing and maintaining applicable emergency preparedness binders
- Developing and maintaining applicable field operating manuals
- Responsible for health & safety, including other employees, contractors and visitors to our sites
- Major contributor to the continued development of both the water and wastewater utility systems as they are upgraded
- Perform all other duties as required to ensure the safe and reliable operation of utility systems or all Corix operations
- Locate utility services prior to construction activities
- Repairs to small irrigation and water lines
- Replace water meters when required

QUALIFICATIONS

- Post-secondary education, training and/or certifications in any or all of the following will be considered:
 - Water Treatment
 - Water Distribution
 - Wastewater Collection
 - Wastewater Treatment

- Field experience in plumbing, electrical or mechanical trades an asset
- Knowledge of performing regular inspections of the sewer collection system, locating and inspecting manholes and the sewage lift station, and facilitating repairs as required an asset
- Knowledge of performing regular inspections of the water distribution system, locating, inspecting and repairing valves and PRV stations an asset
- Ability to read water meters, keep maintenance records and update plans
- Experience in collecting and testing drinking water samples an asset
- After-hour and weekend on-call support is required
- Must be available to work shift work: weekend scheduling may be required
- Good mechanical aptitude
- Valid Alberta Drivers license; must be able to provide driver's abstract
- Training in propane and confined space operations will be provided
- Ability to maintain logs as required using MS Word and MS Excel and to communicate via email using MS Outlook

APPLICATION EXPIRY DATE

- Positions will remain open until filled.

If you possess these skills and qualifications, we invite you to apply online in confidence at www.corixjobs.com.
We thank all candidates for their interest; however, only those shortlisted will be contacted.
