

‘AWWA C800-21 no lead Service Brass updates, Selection & Installation of Service Line Products and Tapping Methods for common Water Mains found in Maritimes’

August 17th, 2022

Sussex Golf Course, NB

WORKSHOP DESCRIPTION:

Morning workshop is intended to provide the operators and engineers with an overview of equipment selection and Service Line Products used on various connection pipe tapping techniques & methods. The morning will also include a demo and installation guide for both direct drilling and tapping and saddle drilling. The afternoon workshop will offer hands-on stations that will test delegates on basic tapping techniques.

The workshop will cover the following basic areas:

Technical Overview

- History underground Service Line Products
- AWWA C800-21 underground Service Line Product update
- Purpose of Specification Standards – what should you include in your own specs?
- Review of C800 Brass Valves, Fittings, including installation methods
- Review of Service Saddles, including installation methods
- Review of Service Box/Access box, including installation methods

Tapping Methods

- Equipment/Tool Selection
- Set-up and Safety
- Direct Tap Machine Methods
- Saddle Drilling Machine Methods

Hands On

- Direct Tap
- Saddle Tap on Iron
- Saddle Tap on PVC
- Tapping on a pressurized line
- Equipment operation maintenance

COURSE FORMAT:

Every attempt is made to keep the course informal and an enjoyable day-long training experience. Registration starts at 8:00 am, and the instructor will start shortly after 8:30. BBQ Lunch is provided and is served from 12:00-1:00pm. Wrap-up time is usually around 3:45pm. Though all workshops are non-smoking, ample breaks are provided for coffee and discussion.

PRESENTER:

Jeff B. Jensen, Mueller Water Products www.muellercompany.com

Dan Farren, Wolseley Waterworks NB www.wolseleyinc.ca

Jeff has been involved in the Waterworks industry for 22 years, 20 as Atlantic Manufacture Representative for Mueller. Mueller has a rich history of pioneering industry milestones when it comes to Service Line Connection advancements and Machines for such connections. Jeff has been involved with the MPWWA & ACWWA education committees during the past 18 years as a facilitator/presenter volunteer. Through this time he has invited delegates to share their experiences thru workshops. Mueller has provided Jeff time to support the local training associations operating in the Atlantic Water & Sewer industry.

Dan Farren is a ten-year Waterworks industry member tirelessly serving the province of New Brunswick as a Representative for Wolseley Waterworks. Wolseley have two dedicated Waterworks branches located in Moncton & Saint John, New Brunswick which stock ample Service Line Brass Valves and Fittings – all C800/NSF-61 no lead, various Service Tubing, Pipe Saddles and Tapping machines.
