

Operational Math Course

** This course is approved for operator certification renewal and has a CEU value of: 0.6

December 14, 2022 – Windsor, NS

COURSE DESCRIPTION:

This course is designed to refresh operators with their math skills. It will carry on from where the “Basic Math Course” left off and go further in depth with the math involved for operators in the level II or higher. It will however start at the basics and progress through the more complex math problems that the operator could expect to use or see on certification exams.

Some of the key areas that this course will focus on but not limited to are;

- Common conversions – Where and Why we use them and their applications.
- Calculations for Volume, Flows, Chemical Dosing, Process Controls, Laboratory Work,
- Trench Work, Pumping Stations, Detention Times, Exam Writing Techniques etc.

Instructed by Nicholas Denero

Nicholas Denaro holds a Class III Water Treatment Certification and a Class III Water Distribution Certification from the Nova Scotia Department of Environment. Nicholas has over 13 years of experience in source water protection, water treatment and water distribution. He has a personal interest in source water protection, water analysis and system optimization.

Brian Hazlett will be coordinating and will also be adding input from his experience. Brian has 40 years of professional experience in the operation and management of various distribution, collection, and treatment systems for drinking water and wastewater and is certified in all four fields.
